

DIGITAL VETERINARY SUMMIT

Advancing Digital Innovation To Deliver Actionable Insights In The Veterinary Clinic

Overview

This year at the **Digital Veterinary Summit**, we brought together over 100 executives from across the animal health and veterinary industry, to examine the sector's digital trends and dynamics, and showcase the industry's most exciting emerging technologies.

Topics covered by panels include:

- ☑ How the Adoption of Digital Technology in US & European Vet Clinics Has Improved Workflow and Practice Productivity.
- ☑ How Digital Technology Can Support Workplace Transformation and Talent Acquisition
- ☑ Future Opportunities Through the Digitization of Veterinary Medicine
- ☑ Advancing the Digital Transformation of the Veterinary Sector in the US
- ☑ Telemedicine: New Approaches and Next Steps for Virtual Care & Consultation
- ☑ Collaborative Approaches to Advancing Digital Standards In Vet Practice
