AI HARDWARE & EDGE AI SUMMIT

SEPTEMBER 2023 | SANTA CLARA, CA

> " Compared to last year's summit, this conference is more focused on generative AI and LLMs... "

WHAT WERE YOUR MAIN OBJECTIVES BEHIND ATTENDING? WERE THEY MET?

I wanted to be informed about AI developments and pass the information along to my company, peers, and others.

WERE YOU ABLE TO CONNECT WITH LIKEMINDED COLLEAGUES AND NEW INDUSTRIES?

Yes, I got the opportunity to meet and network with AI experts that I met at last year's summit, as well as some new friends. During the meeting, I also invited other AI friends to stop by the Marriott to discuss AI developments. I have highly recommended them to attend next year's summit.

WHAT WAS YOUR KEY TAKEAWAY FROM THE EVENT?

Compared to last year's summit, this conference is more focused on generative AI and LLMs. We are seeing glimpses of the future with Generative AI. Software is becoming more important in the hardware industry, and AI beyond text prompts is emerging.
