AI HARDWARE & EDGE AI SUMMIT

SEPTEMBER 2023 | SANTA CLARA, CA

“ I met multiple experts and got to learn and observe what they are working on...”

WHAT WERE YOUR MAIN OBJECTIVES BEHIND ATTENDING? WERE THEY MET?

The main objective was to scope out development in AI and applied AI and bring those back to improve our own product development. Along with guiding the strategy of our organization. This year's summit was phenomenal on the tailwinds of all the noise of LLM.

WERE YOU ABLE TO CONNECT WITH LIKEMINDED COLLEAGUES AND NEW INDUSTRIES?

Yes, I met multiple experts and got to learn and observe what they are working on. AI is starting to bloom and I will review the recordings to catch up on what I missed.

WHAT WAS YOUR KEY TAKEAWAY FROM THE EVENT?

AI hardware investment is taking center stage with Nvidia's rise. I feel this is the beginning of a new way and cycle which I think will hold up for the next few years.
