

2021 POST-SHOW REPORT

4TH ANNUAL EDGE AI SUMMIT

OPTIMIZED & TRUSTWORTHY AIoT, EVERYWHERE

Virtual Event: November 15-18, 2021

www.edgeaisummit.com

TOP 3 KEY TAKEAWAYS:

Inference at the edge is being accelerated through a combination of **SW and novel HW techniques, including brain-inspired.**

Learning at the edge is possible and will be increasingly needed due to **privacy concerns.**

No single hardware company will dominate the edge AI market, rather mid-sized companies will dominate very application specific areas.

“Excellent event opening positive insights and a current view of commercial developments.”
CTO, **Schottky LSI, Inc.**

35+ INDUSTRY LEADING SPEAKERS:

Joseph Engler
Chief AI Scientist
Collins Aerospace

Patrick D. Bangert
Vice President of AI
Samsung SDS America

Denis Gudovskiy
Sr. Deep Learning Researcher
Panasonic AI Lab

Rangan Sukumar
Distinguished Technologist -
Chief Technology Office
Hewlett Packard Enterprise

Anil Mankar
Chief Development Officer
and Co-Founder
BrainChip

Pete Bernard
Sr. Director, Silicon and Telecom, Azure
Edge Devices, Platform & Services
Microsoft

Harsh Bhate
Research Engineer, Advanced
Software Applications Team
Ford Motor Company
