Tsang-Yung Wu
Software Engineer
Tesla

- **As a returning attendee to the AI Hardware & Edge AI Summit, what made you want to attend again?**

I wanted to **catch up with the latest developments in AI** hence I am returning again.

- **What are you most looking forward to about attending?**

I am looking forward to seeing the **state-of-the-art AI applications** and technology available.

- **What is the key to making AI faster, more efficient and affordable?**

Chip designs and software compilers. We need to have a **scalable ASIC with a compiler** to deploy almost all AI models onto this chip.
